OBJECTIVE

Motivated Computer Science and Engineering student with a solid academic foundation and a passion for technology. Seeking opportunities to apply my programming skills and contribute to exciting projects that shape the future of technology. Ready to engage in collaborative environments and explore innovative solutions.

EDUCATION

Alva's Institute of Engineering and Technology,Mijar,Moodbidri   **2021 – Present**
B.E - Computer Science and Engineering - **CGPA** *-* **8.1**   *Dakshina Kannada, Karnataka*

PROJECTS

Employee-payroll-management-system ↗ | HTML, CSS, PHP, MYSQL, XAMPP, VS Code
- The Employee Payroll Management System was designed to replace the company's manual payroll processes with integrated software solution.
- It included modules for employee information management, attendance tracking, salaryalculation, deductions taxes, and generating pay slips. Additionally, it featured reporting capabilities to provide insights into payroll expenditures and trends over time.

E-Gram-Panchayat-Service-APP ↗ | Android Studio, PHP, HTML, CSS, JAVA, MySql, Xampp
- Developed the E-Gram Panchayat Android app to streamline local government administration, enabling citizens to lodge complaints, track projects, and receive updates on events.
- Enhanced community engagement and administrative efficiency through a user-friendly platform.
- The app is built using HTML ,CSS , PHP, Java as the primary programming language and leverages MySQl as Database to provide a seamless user experience.

Finance-Tracker ↗ | DJANGO, HTML, CSS, db.Sqlite
- Develop the **FinanceTracker** using Django
- Keep track of your account balances
- Added **10-12 new features** like Aggregate transactions from all your banking institutions, including checking accounts, savings accounts, and credit cards
- HanAnalyze and budget your spending using a spreadsheet and formulas.

Food Ordering ChatBot ↗ | HTML, CSS, PYTHON, FASTAPI, MYSQL, Dialogflow, Xampp
- Developed an intelligent chatbot for a food delivery system using Google's Dialogflow, which serves as the conversational interface for users to interact with the delivery service.
- The chatbot is designed to understand user intents, provide menu options, take orders, and handle customer service inquiries.

TECHNICAL SKILLS

Languages: JAVA, MySQL, PYTHON
Technologies/Frameworks: HTML5, CSS3, Django, Bootstrap
Developer Tools: VS Code, Canva, Eclipse, IDE

INTERNSHIPS

Full Stack Web Development   **(Oct 2023 - Nov 2023)**

AADI FOUNDATION | INTERNSHALA
- Implemented a user-friendly front-end design with HTML5, CSS3, and jQuery to ensure an excellent user experience.
- Developed a full stack application using PHP and MySQL to enable users to interact with a dynamic content management system.

CERTIFICATIONS

- Salesforce Developer Certification -Smart Intrez
- Basic programming and Data structures - CodeChef
- Project-Based Learning: Build an AI Text Summarizer app - Postman
- Postman API Fundamentals Student Expert certification - Postman
- UiPath Academy Automation Explorer Training - UiPath
- Accenture Developer and Technology - Forage

EXTRACURRICULAR

- Web Designing
- Photo / Video Editing
- Coding for personal projects
